PROHIBITION MEASURE PASSES HOUSE 53 TO 16

Great Demonstration by Temperance Advocates When Vote Was Announced.

TALLAHASSEE, April 23.—Special—The State-wide prohibition amendment which passed the Senate Thursday afternoon 24 to 7, passed the House on waiver of the rules this afternoon at 3:30 o'clock by a vote of 53 to 16, Representatives Carter and Doke of Alachua voting for its passage.

The House was in continuous session on the measure for five and a half hours, and the fight was probably the most spectacular in the history of the body, although it has been apparent for some time that the "drys" had the advantage. Delegations were here from several cities and towns, some working for the bill's passage while others were equally as zealous in an effort to defeat it. Hundreds of ladies were present and were great workers in support of the measure.

As the House did not adjourn at the noon hour, the ladies served sandwiches, coffee and lemonade to members in the capitol.

The passage of the bill precipitated a great demonstration, the temperance advocates singing and shouting on all sides.

TALLAHASSEE, April 23.—Fresh from the victory in the Senate the prohibition forces carried their fight into the House at 3 p. m. Thursday. The great chamber was filled with legislators and spectators, at least half of whom were women.

The assemblage seemed ensconced in an atmosphere of excitement and expectancy, which was momentarily broken by the sharp sounds of the gavel coming into contact emanating from the Speaker's stand.

Cool and deliberate, the Speaker arose, and after admonishing those in the rear to come to order, announced that the House was in session. A death-like silence pervaded the chamber. Attention was eagerly strained to catch the next move. This came when the clerk arose to call the roll. Roll call showed a quorum present. Motion was then made by Mr. Hilburn of Putnam that the House adjourn until 10 a. m. Friday. Motion prevailed.

Hearing Begins.

The Speaker then announced that the constitutional amendment committee would come to order.

With unfaltering step, the members of the committee slowly filed around the row of desks and walked up the steps leading to the Speaker's stand, where they took their seats.

This added materially to the impressiveness of the scene. Sitting with as much grace and dignity as any supreme bench, the committee was in plain view of all.

In front of the row of desks on the floor sat many of the business men of Jacksonville.

The members of the House were at their desks and scattered throughout the chamber were groups of women, bearing bouquets of flowers, and pinned close to the left shoulder were small white ribbon bows, emblematic of their purpose.

Mr. Hodges, the youngest member of the House, as chairman of the committee, called the assemblage to order. Following this he announced that Mr. J. M. Barrs of Jacksonville would be the first speaker of the afternoon.

Mr. Barrs made a lengthy address in opposition to the passage of the amendment. He was followed by John G. Christopher of Jacksonville, who read a letter from one brother in Georgia to another brother in Jacksonville, giving instructions to sell the family property in Jacksonville at $40,000 less the actual value should prohibition pass.

Rev. C. C. Carroll of Ocala preached an impressive sermon in favor of prohibition. He said the question came not from prohibition entirely, but from the evils of the liquor traffic as well.

T. J. Watkins of Orlando offered a petition from whom he pleased to term the business men of Orlando, asking the Legislature to pass the constitutional amendment. He said prohibition was proving satisfactory in his county and therefore he wanted to see State-wide prohibition.

A. D. Stevens of Jacksonville said he was here to enter protest against the statement that the delegation from Jacksonville represented the business interests of that city. He submitted a list of names of citizens of Jacksonville whom he said wanted prohibition.

Mr. Chase, of the committee, asked for the list of names, stating he would point out to the committee whether or not they represented the business interests of Jacksonville.

Among other speakers heard was Rev. Brooks Lawrence of Alabama. He thought the amendment should be adopted at once. He reviewed the

HONEST REVISION OR DEFEAT FOR G. O. P.

THIS IS OPINION OF JAMES J. HILL, RAILROAD MAGNET.

Says He Has No Interest in the Tariff, But Wants to See Country Prosperous.

WASHINGTON, April 23.—Honest downward revision of the tariff, or certain defeat of the Republican party at the Congressional elections of 1910!

This ultimatum, brought to the National Capital from the Middle West by James J. Hill, the railroad magnate, is now being echoed from all parts of the country, (all except the New England States.)

Advices being received in Washington from the South, the great Central States, the Middle West, the far West and Southwest, are to the effect that the people demand a revision of the tariff in good faith; they will not be satisfied with revision downward principally on raw materials, but insist upon a uniform revision downward on manufactured articles as well.

Everywhere (except in the new England States) the tendency in public sentiment seems to be to accept the Payne and Aldrich bills as measures drawn practically solely in the interests of the big manufacturers, without due regard to the wellfare of the producers and consumers. Those who have been keeping in close touch with the effect of the tariff controversy on various sections of the country, predict the outcome will be closer political harmony between the South and West. These two sections, it is declared, will sooner or later be compelled to act together politically to protect their interests in the making of National legislation.

Not a few Republicans are worried over the Hill brand of predictions. If Western Republicans were in control of legislation they would not dare persist in forcing a measure like the Aldrich bill through Congress, they would fear defeat at the hands of their constituents at the first election following the passage of the bill.

Senator Aldrich is in a different position. His bill which fails to revise the tariff downward and protects the profits of the big interests is just the kind of legislation his constituents desire. The more revision upward he can inject into the bill the more certain he is of re-election. The revision of the tariff is wholly at the mercy of Aldrich and others occupying like situations; for instance, Hale of Maine, Penrose of Pennsylvania, and in the House Payne of New York and Dalzell of Pennsylvania.

Thus it is that the anti-Aldrich bill sentiment of the entire country save the New England States has a hard time of getting results.

President Taft's proposition in the tariff controversy is daily becoming more remarkable. He is said to be greatly chagrined because the Aldrich bill does not provide revision downward, and yet he is taking, so far as can be learned, no step toward having the bill improved.

If the President would indicate in the most remote way that he would favor such action, there are in the Senate back of his own political fold who would attempt to put through a revision regarding the present tariff bill back to the Finance Committee with instructions to make a complete investigation.

A few Western Senators—only a few—would like to interfere with a revision. They feel confident that could we get it over till the Presidential election, the tariff question would afford ample support to re-elect a majority of the present Senators.

McMULLEN'S DRAMATIC PLEA FOR PROHIBITION

His Mother a Corpse at Largo, But He Remained to Fight For Measure He Championed.

TALLAHASSEE, April 23.—Dramatic in the extreme was the effect given to the fight by the earnestness shown in behalf of the resolution by Senator McMullen for constitutional amendment for State-wide prohibition. Wednesday night his mother passed away at the old home at Largo, but, feeling that it would be her wish for him to do so, he remained for the fight instead of going to her bedside. The strain upon him was apparent. He bore up strong, however, until he was through speaking in behalf of his measure. There were many wet eyes among the Senators as well as the spectators when he had finished.

Senator Adkins of Starke also received a telegram stating that his mother was seriously ill, but he, too, remained to cast his vote. He was excused immediately afterwards.

Senator Zim came from his sick bed to vote against the amendment.

Senator Buckman of Jacksonville was the only one to speak at any length against the measure. He spoke for nearly an hour and a half altogether.

There were a number of speeches made by the other side.

Routine Proceedings.

Thirty-one members responded to roll call when the Senate was called to order at 10 o'clock.

Resolutions were introduced as follows:

Senate Resolution No. 32, Cone, opposing reappointment of Joe Lee as Collector of Internal Revenue at Jacksonville. Adopted.

No. 33, Cone, continuing daily morning session until 1 o'clock. Lost, 15 to 9.

Bills were introduced as follows:

Senate Bill No. 204, Massey, regulating taxation of costs in civil causes in supreme court.

Joint resolution 205, Massey, constitutional amendment relating to establishment of courts.

Senate Bill 206, Dayton, prohibiting dynamiting of fish.

Senate Bill 211, Hudson, defining care of dependent children.

Senate Bill 212, West, relating to taking testimony in chancery cases.

Senate bill No. 213, Henderson, free transportation for sheriffs of State.

Senate Bill 214, Buckman, relating to instruments payable at banks.

Consideration of Resolutions.

Senate concurrent resolution No. 3, Flournoy, appointing committee of eight to inspect drainage work in everglades. Withdrawn because of similar one already passed.

Concurrent resolution No. 8, Hosford, asking Congress to prevent imposition of ad valorem duty on lubricating oils. Adopted.

House memorial No. 7, Acre of Osceola, for $75,000 appropriation for Kissimmee river.

A telegram was received from Senator D. U. Fletcher acknowledging notification of his election.

Bills on Second Reading.

House Bill No. 17, Butler of Dade, creating Palm Beach county. Mr. Baker, speaker pro tem, took the chair and Mr. Hudson moved that the bill be read second time by title only. To third reading.

Senator McMullen moved that the rules be waived and that Senate joint resolution No. 68 (the prohibition amendment) be taken up out of its order.

Senator Buckman protested. Senator Beard also protested because his bill was set for Friday.

Senator McMullen claimed Senator Beard's remembrance of the facts in the case to be rather poor.

The motion carried, 21 to 10. Ayes—Adkins, Baker of the Twentieth, Baker of the Twenty-ninth, Broome, Crill, Cone, Cottrell, Dayton, Flournoy, Girardeau, Humphries, Leggett, Massey, McLeod, McMullen, Miller, West, Williams, Withers, Hudson—21. Nays—Beard, Buckman, Cook, Davis, Harris, Henderson, Hosford, Johnson, McCreary and Sams—10.

Senator Beard spoke for prohibition, but opposed the resolution, as he claimed the object could be obtained by statutory law. He feared that the fight over the amendment at the polls would divide the white people of Florida and give the negro the balance of power once again.

Senator Buckman opposed the action of the submissionists and declared the local option law of Florida to be sufficient. Public sentiment must be with a law to enforce it, he said. He claimed that Sate-wide prohibition would be the greatest of menaces to the growth of Florida. He claimed to be able to show that prohibition has proven a failure wherever tested. He also brought in the negro question. He referred to resolutions adopted by various commercial and trades bodies of the State. He spoke for over an hour, bringing all the usual arguments up against prohibition.

Senator Broome, though ill, spoke eloquently for the amendment. He said Senator Buckman's long speech reminded him of the title of Shakespeare's play, "Love's Labor Lost." He pleaded for the submission of the amendment. He replied to many of the arguments against the resolution and won much applause from the ladies and visitors in the chamber.

Senator Sloan of the Seventh followed Senator Broome in attacking the arguments made against the measure. He was frequently interrupted

WORTHINGTON SEASON OPENS ON 29th

A BIG DANCE PLANNED FOR THURSDAY EVENING.

Many Cottages in Course of Erection. Springs Free to Sunday School Picnic Parties.

WORTHINGTON SPRINGS, April 22.—The summer season will open up here with a big dance at the new pavilion on Thursday evening, April 29th. Everybody is invited to attend. Mr. Lamb has been at work for three months on the springs and surroundings and now has one of the most attractive and beautiful places in Florida. This place is known to comparatively few but Mr. Lamb is very energetic and no doubt it will soon be better known.

Jas. M. Graham of Gainesville is erecting a summer cottage here, which will soon be completed and occupied by Mr. and Mrs. Graham.

Mr. Bowles and son of St. Petersburg have a contract to erect a handsome residence here for Dr. W. E. Middleton.

B. M. Leverett is building a cottage for summer occupancy for himself and family.

Mrs. Lamb will be assisted in chaperoning on the evening of the 29th, by Mesdames J. M. Wolfenden and B. M. Leverett, also by several friends from Gainesville. The dancers will have a nicely polished and waxed floor for the occasion.

Mr. Bruce Warren is building a nice residence.

Rev. G. W. Miller preached a very able sermon on Character-building Sunday to a small but appreciative audience. The services were held in the hotel lobby. Services have been held here once a month for the past few months but will in future be held at the pavilion until the church is erected.

Quite a crowd from neighboring towns came over last Sunday for a day's recreation and to enjoy the bathing, but were disappointed about the bathing, as the cement pools were not sufficiently hardened to turn the water on. Water will be turned into the new pool Thursday, the 22nd, for the first time.

Messrs. Rowe and Jones, contractors of Lake Butler, will complete a residence for J. B. Patrick by May 15th.

Dr. Lawson of Hohira, Ga., is spending some time here for his health. He is a nephew of Montgomery M. Folsom.

Dr. Middleton brought his family over for a few days last week. They were guests at Hotel Worthington.

George Bouls of Jacksonville is a guest at the Cox House.

Neil Wade, who has been grading road here for the A. C. L., has gone to South Carolina to accept another railroad contract. He leaves Mr. Morrison in charge here.

H. K. Wolfenden paid Gainesville a business call Monday.

I. F. Lamb left today for Jacksonville, where he goes for a day or so on business.

Zill Smith of Alachua spent a day here angling, but the finny tribe were having a day off, so no success.

Mr. Lamb brought in half a bushel Saturday that were fine. A gentleman tells a story like this: He came over for a day's fishing, having heard of Mr. Lamb's success. He threw in a nice big, fat worm and pretty soon his cork was bobbing up and down on the water, whereupon he began to draw it in. Upon getting his head out of the water the fish remarks: "Thought Mr. Lamb was along." The gentleman replied, "No, he couldn't come today." To this the fish remarks, "Nothing doing," and seemed to have a convulsion, shaking the hook loose, and returns to the watery depths.

Little Iva Beech of Charlotte, Mich., who has been attending the school at Lake Butler for the winter, was the guest of Ethel Lamb Saturday.

Mr. Lamb offers the pool here free to Sunday school picnics

(Continued from Page One.)

by applause.

Senator McMullen spoke only a short time but earnestly pleaded for the resolution. He stated that no business organization holding the respect of the business interests of Tampa had adopted any resolution against prohibition. The clearing house association turned down such resolutions by a vote of two to one, he said. He produced telegrams just received from eighteen of the twenty-two wholesale houses of Tampa asking the passage of the resolution. This was in reply to the statement of Senator Buckman. His address was able and won continuous applause.

Senator Zim declared prohibition a failure and opposed the resolution. He referred to the action of the State Federation of Labor opposing the submission of the amendment.

Senator Dayton referred to the ballots cast in the election, which sent many of the Senators to their seats in this body.

Senator Aukins also spoke for the resolution. He said that he was voting according to the wishes of his constituents.

Senator Buckman resented aspersions which he claimed Senator McMullen threw upon Duval county and continued his arguments.

The question was then called and the resolution carried by a vote of 24 to 7.

BIG JAIL DELIVERY AT DELAND

CONDEMNED MURDERERS AMONG THOSE WHO ESCAPED.

The Prisoners Secured Their Liberty by Digging Through the Cement Floor.

DELAND, April 23.—A jail delivery here last night liberated Arthur Nelson, convicted of murder in the first degree, and sentenced to death, also John Johnson, who was also convicted of murder this week and given a life sentence. Others who escaped were Charles Warren, indicted for murder; Theo. Hart, for manslaughter, and Jim Hampton, charged with adultry.

The prisoners were left in the corridor of the county jail over night, and dug their way out through the cement floor and brick walls. Bloodhounds couldn't take the trail because too many people had been on the scene.

TRICK PERFORMER HAS NARROW ESCAPE

FERNANDINA, April 23.—Walden, the Wizard, who gave a performance at the Lyceum, narrowly escaped suffocation while endeavoring to escape from a locked and sealed chest, owing partly to the chest and also to its construction. This was entirely different from the old trunk mystery, as the chest contains no traps or false panels, and to escape from it is a very difficult task.

The idea of the trick was that Mr. Walden's assistant was to take his place in ten seconds. These the assistant counted, after the trunk was locked and sealed. Mr. Walden failing to make his appearance the assistant immediately suspected that something was wrong. Then on the instant feeble cries for help were heard and running to the curtain the assistant dragged forth the trunk and with the assistance of some of the committee succeeded in liberating the unfortunate man, whom they found in a state of collapse, having fanted entirely away. He was carried behind the curtains and helping hands soon restored him to consciousness. In speaking of the accident Mr. Walden stated that on his return here in the near future he would escape or die in the attempt.

The Revival Meetings.

The revival meetings at the Advent Christian church continue to attract large congregations. Rev. J. T. Johnson will leave today for Dowling Park, in Suwannee county, where he will fill the regular appointment of Rev. Sweet, who is assisting in the meetings here, and Mr. Sweet will conduct the services here tomorrow. There will be no service tonight.

Mr. F. G. Fritts, Oneonta, N. Y., writes: "My little girl was greatly benefited by taking Foley's Orino Laxative, and I think it is the best remedy for constipation and liver trouble." Foley's Orino Laxative is best for women and children, as it is mild, pleasant and effective, and is a splendid spring medicine, as it cleanses the system and clears the complexion. J. W. Not Sisters

Now and again you see two women passing down the street who look like sisters. You are astonished to learn that they are mother and daughter, and you realize that a woman at forty or forty-five ought to be at her finest and fairest. Why isn't it so?

The general health of woman is so intimately associated with the local health of the essentially feminine organs that there can be no red cheeks and round form where there is female weakness.

Women who have suffered from this trouble have found prompt relief and cure in the use of Dr. Pierce's Favorite Prescription. It gives vigor and vitality to the organs of womanhood. It clears the complexion, brightens the eyes and reddens the cheeks.

No alcohol, or habit-forming drugs is contained in "Favorite Prescription." Any sick woman may consult Dr. Pierce by letter, free. Don't fail to remember the large number of business houses in the contest—there are some big firms signed up and the vote at these places will amount to considerable, therefore it will pay the candidates to be alert.

Five Cases Before Mayor.

There were five cases before Mayor Davis on Friday morning, all being charged with disobeying the sanitary laws of the city.

All were let off with the payment of costs upon the promise to comply with the city ordinance in reference to the sanitary buckets.

C. Y. Crawford, charged with allowing water to run on the streets near his stables, was instructed to connect with the city sewer at once.

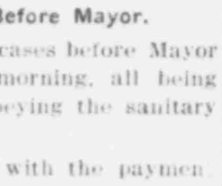
Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

Weak and unhealthy kidneys are responsible for much sickness and suffering, therefore, if kidney trouble is permitted to continue, serious results are most likely to follow. Your other organs may need attention, but your kidneys most, because they do most and should have attention first. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to feel its effects.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root. A trial will convince you of its great merit.

The mild and immediate effect of **Swamp-Root**, the great kidney and bladder remedy, is soon realized. It stands the highest because its remarkable health restoring properties have been proven in thousands of the most distressing cases. If you need a medicine you should have the best.



Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle of Swamp-Root by mail free, also a pamphlet telling all about it and how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

Mrs. Russell Sage is said to pay the heaviest tax of any person in the city of New York. The tax books show that twenty New York women are assessed for upward of $17,000,000 and more than a score of others are required to pay from $50,000 to $100,000.

There were 184 persons killed and 2,924 injured in train accidents during the three months ending December 31 last, according to the Interstate Commerce Commission report just made public. Other kinds of accidents, including those to employes while at work and to passengers in getting on and off cars, etc., bring the total number of casualties up to 17,644—798 killed and 16,846 injured. This shows a decrease of 2,814 in the total number as compared with a year ago. There were 1,373 collisions and 1,311 derailments, causing $1,940,133 damage to cars, locomotives and railway.

A CONSTITUTIONAL CONVENTION.

(From The Tallahassee News.)

"Come now and let us reason together" over this question of a Constitutional Convention. When the last one met, it was soon evident that there were two strong factions in it, nearly equally divided, and that the few Republican members of it held the balance of power. Nearly every important matter was decided by these few people. The result was that while it was as good as could have been made at that time, and under the circumstances, it was an instrument of compromises. This fact will not be disputed. Since the adoption of the Constitution of 1885, there have been a few changes, but latterly the people have decided that it has been patched up about as much as it will stand, and therefore a demand for a convention.

Take the subject of new counties. If reapportionment is made, the Legislature must get back to 100, and some counties would have to be grouped for one representative. A Constitutional Convention could not only fix new representation, but the number of increases could be provided for, and it could also create new counties and submit the question to the people, thus taking away a much discussed and vexed question from the Legislature.

For six years the Legislature has been submitting to the people various and sundry amendments relating to the judiciary system of the State. But the people have turned these down regularly, because they have recognized in them a makeshift—a "tiding over," so to speak, until something better could be arranged.

Some six years ago an amendment was proposed and submitted to the voters providing for a better system of government for municipalities. This was defeated, and yet its passage would have saved thousands to the State in time spent by the Legislature discussing and acting on charters.

The Educational Department needs thorough revision. No matter how urgent the matter, in view of the recent decision of the Supreme Court, no money can be taken out of the general fund for the use of the common schools. They must be content with the one-mill tax and interest from the school funds. And yet for years to come, if not always, the rural school is where the great majority of our boys and girls are to receive their education.

The temperance people could not reasonably object to it, as the question would come up in the convention, and the matter of prohibition would come right up before the voters in the selection of delegates. It could be put in the Constitution, and submitted in the document proper, or separately as it was done before.

The item of expense will be small in comparison to the good to be accomplished. The submission of the amendments at each election costs anywhere from ten to twenty thousand dollars, depending on the length of the advertisement. The Governor suggests that an amendment be set before the people reducing the cost of publication and notice of publication to thirty days each. This is sufficient time, and the newspapers, who would be the losers, are in favor of it. But the people voted it down two years ago. Yet it could be provided for in a new Constitution.

So that look at it as we may, we believe the time is ripe for the submitting to the people the question of calling a Constitutional Convention.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

CURRENT COMMENT.

The Birmingham News says: "Every few days reports are multiplying of the large amounts of money coming out in search of a job. Within the next few months many millions that have been idle during the depression will be available for legitimate investments."

The New Orleans Picayune says: "While the Senate cannot escape its own responsibility for the extravagance which has prevailed in expenditures in recent years, its determination to solve the difficulty presented by retrenchment rather than by new taxation, affords greater wisdom than the Lower House of Congress seems to possess. The efforts of the Senate's Budget Committee will be watched with interest."

The Chattanooga Times says: "President Taft has announced the end of the political bank examiner. Hereafter these officials, whose functions are so important to the business of the country, are to be selected entirely without reference to political 'pull' and party predilections. This may not secure the appointment of many Democrats, but may encourage those who now hold the jobs to perform their duties faithfully and without fear of consequences from powerful political sources. If the President shall succeed in this particular matter of reform he will have done a great deal for genuine civil service efficiency."

THE MUSICIAN FOR MAY.

The Musician for May published by the Oliver Ditson Company, Boston, Mass., has an array of interesting things for the music lover and the professional musician. This is the month for music festivals, which The Musician recognizes by printing a delightful account of a festival association, composed of five small country towns which give annual performances of standard choral and orchestral works, under the title "A Study of Community Work in Music." Also a sketch of L. O. Emerson, the famous composer and conductor still living and in his eighty-ninth year. Other interesting articles are: "Paderewski—An Example for the Student," "The Etudes of Chopin," "Pupils' Recitals," a program of music and recitations for children, and the "Teachers' Forum," full of practical suggestions to teachers and students, with special departments for singers, violinists and organists.

The music section contains 24 pages, full sheet music cover, vocal and instrumental, popular and standard. The cover is a charming pastoral scene specially suited to the spring season.

Now that President Taft has attended a baseball game that African trip is losing much of its interest.

GRAND CELEBRATION URGED FOR JULY 4th

MANY MERCHANTS SPEAK FAVORABLE CONCERNING IT.

Matter Only Needs Someone to Take Active Steps and Push It for Success.

Quite a number of the leading merchants of Gainesville have already signified their willingness to contribute toward a grand celebration of the great National holiday, July 4th.

For a number of years Gainesville figured very prominently along this line, but lately it seems that the people have become so absorbed in their business that they have given little attention to occasions of this character.

If the matter is taken up at once and sufficient time allowed for committees to correspond with the railway officials it is believed that low excursion rates can be secured, and with a program that would prove a drawing card, the railroads might be induced to run special trains here for this occasion.

With a little work it seems that enough citizens could be gotten together to form some kind of an organization to further this scheme. It would prove advantageous to the city from every standpoint.

The secretary of the Board of Trade, who is really about the only active member of that body, is now very busy working on other important matters for the advancement of Gainesville, but with his usual generosity, he will lend whatever assistance he can to further the proposed celebration if interested parties will join him.

By commencing this matter now it can be worked up sufficiently to arrange for a very attractive program and make it worth the while for outsiders to visit us and enjoy themselves on this day.

We often wonder how any person can be persuaded into taking anything but Foley's Honey and Tar for coughs, colds and lung trouble. Do not be fooled into accepting "own make" or other substitutes. The genuine contains no harmful drugs and is in a yellow package. J. W. McCollum & Co.

TO USE PERUNA.

MRS. J. G. DUKES.

Rev. J. G. Dukes, Pastor of the Unitarian Church of Pinetown, N. C., writes:

"My wife has been in a very bad state of health for several years, and nothing seemed to do her any good until she began to use Peruna one month ago. Since then the color has returned to her face, and she is gaining in flesh every day, and I believe she is a well woman to-day.

"My little boy, ten years old, was pale and had but little life. He began to use Peruna the day his mother began. To-day his face is rosy, and he is out in the yard running and jumping with the rest of the children."

Stomach Trouble Relieved.

Mrs. T. J. Ballard, Pryor Creek, Indian Territory, writes: "I am happy to tell you that I keep free from my old stomach trouble; feel no catarrhal symptoms at all. I am able to do my work, eat and drink what I want, and rejoice that I found a sure cure in your valuable medicines, which I failed to find in the best of home physicians."

A SIGNAL VICTORY FOR MRS. SCOTT

SHE IS ELECTED PRESIDENT-GENERAL OF D. A. R.

Her Success Was a Triumph for the Administration Forces Led by Mrs McLean.

WASHINGTON, April 23.—By a vote of 426 to 428, Mrs. Matthew T. Scott of Illinois was today declared elected president-general of the Daughters of the American Revolution, over Mrs. William Cummings Story, of New York.

Mrs. Scott's election was a victory for the administration faction. A number of delegates refused to make the election unanimous on Mrs. Story's motion.

progress in other Southern States since prohibition came to them, and said that Florida would travel along in the same prosperous paths should it be enacted here.

In Executive Session.

The committee then went into executive session, the committee being composed of Representatives Hodges, chairman; Carter, Chase, Alexander, Moore, Dupont, Kelly and Knowles.

Alexander wanted to make an immediate report to the House in favor of the adoption of the resolution for constitutional amendment. This was opposed by Calkins. Carter was absent, and when a vote was attempted the committee found a deadlock. Carter, so it is understood, was in favor of referring the resolution back to the House without reporting favorably or unfavorably.

The committee adjourned until 9:30 o'clock Friday morning.

HONEST REVISION OR DEFEAT FOR G. O. P.

(Continued from Page One.)

to defeat the Aldrich plan of tariff revision, which admittedly is not revision downward of the character promised by Taft.

The one word of encouragement that would bring out the resolution to send the Aldrich bill back to committee for improvement is not forthcoming, however. Somehow or other these Senators who would like a little revision downward feel it in the White House atmosphere the President would be hostile instead of friendly to their idea.

There are lots of statesmen in Washington that would like to know for certainty just what the President is hoping to accomplish in the way of tariff revision, and how he is going about it to accomplish desired ends.

In the view of many the President is confusing his position by withholding his support from those members who want to send the bill back the committee for improvement, and by giving his support to the Aldrich crowd, which is hostile to the kind of revision desired by the country.

What the President thinks of the statement of "Jim" Hill, to the effect that unless the Republican party revises the tariff downward it will meet defeat at the coming Congressional elections, has not yet been learned. He has not discussed the Hill interview with visitors.

Here is what Mr. Hill said: "Unless the Republican party makes a downward revision of the tariff the Democrats will carry the next House by a large majority. The platforms of both parties pledged tariff revision; the Democrats said they would revise it downward, while the Republicans were not so frank, but they were understood by the people to mean that reduced duties would follow the election of President Taft. The people intrusted the downward revision to the Republican party, and if it fails, the Democrats will be given a chance to try their hands. I have no interest in the tariff, but I have an interest in the prosperity of the country; and what the country needs is downward revision of the tariff."

CHILD'S DREADFUL SKIN TROUBLES

Had Sixty Boils when but Six Months Old—Was Annually Attacked by a Humor—It Looked Red Like a Scald and Spread Over Half Her Head—Both Troubles are Cured.

NO PRAISE TOO HIGH FOR THE CUTICURA REMEDIES

"When my little Vivian was about six months old, her papa had a boil on his forehead. At that time the child was covered with prickly heat and I suppose in scratching it, her own head became infected for it broke out in boils, one after another. She had about sixty in all and I used Cuticura Soap and Cuticura Ointment which cured her of them entirely. Then, sometime later, her little foot got sore between the toes. Being afraid it was salt rheum, I spoke to our doctor. He gave me a powder which dried it up, but soon after it broke out behind her ears. They cracked half way around and the humor spread up on to her head until, on several occasions, it was nearly half covered. The humor looked like a scald, very red with a sticky, clear fluid coming from it. This occurred every year. I think it was toward the spring. I always bathed it with warm water and Cuticura Soap and applied Cuticura Ointment which never failed to heal it up. The last time it broke out was when she was six years old. It became so bad that I was discouraged. Then I procured a bottle of Cuticura Resolvent which soon cleared it out of her blood. I continued the use of Cuticura Soap and Ointment with the Resolvent until she was perfectly well. She is now about eight years old and has never been troubled in the last two years. We also find Cuticura Resolvent a good spring medicine and we are just giving the children Cuticura Resolvent Pills as a tonic. We do not think any one can praise Cuticura Remedies too highly. Mrs. M. A. Schwerin, 674 Spring Wells Ave., Detroit, Mich., Feb. 24, 1908."

Complete External and Internal Treatment for Every Humor of Infants, Children and Adults consists of Cuticura Soap (25c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Skin and Cuticura Resolvent (50c.), (or in the form of Chocolate Coated Pills, 25c. per vial of 60) to Purify the Blood. THE GREAT PYRAMID.

It Illustrates the Wonderful Ability of the Ancient Egyptians.

The cost of the labor and material necessary to duplicate the great pyramid of Gizeh at the present time would amount to considerably more than $50,000,000, according to a paper read before the Society of Engineers in New York city by E. S. Wheeler, says the American Architect. The cost of the material alone is estimated at $18,000,000.

This structure, one of the wonders of the world, is founded on solid rock at a depth of about 120 feet below the surface level and rises to a height of 454 feet. Its base covers an area of almost fifteen acres.

Mr. Wheeler's scheme for the reproduction of this pyramid contemplates first the setting of a base of concrete. This would represent about 2,000,000 cubic yards of material and would cost at least $10,000,000. The estimate for the superstructure is about $28,000,000, and it would contain 3,313,000 cubic yards of backing stone and 140,000 cubic yards of facing stone. Mr Wheeler's estimate of labor is 24,000,000 days.

These figures are cited to show the great engineering skill of the Egyptians and the fact that no task in construction appeared to be too large for a people whose extant monuments showed their patience and ability to overcome obstacles that would daunt even the modern engineer.

College Foolishness Barred.

"John," said the farmer, "I've given you the best education the college had in the shop."

"Yes, sir."

"Never stood back for expenses?"

"Never."

"You speak six languages?"

"Perfectly."

"So far, so good. Now, listen. Don't swear at the mule in Greek. Don't use no Latin terms to him, an' don't no French his way. Use the classic dialect that you an' the mule was raised to. It's my opinion that the mule won't stand for college foolishness."—Atlanta Constitution.

THE USEFUL PIG.

A Colored Woman's Story of a Trade and Its Results.

A colored woman was being examined at a conference at Tuskegee. "Do the people in your community own homes?" came the query from Mr. Booker Washington.

"I think's they's fixing to own 'em, sah."

"But do they own them?"

"A heap of times you can't jest tell, sah. But they's holding 'em down."

"Do you own your home?"

"Yes, sah, I do," proudly. "And I can tell you jest how I got it. I swapped a puppy dog for it."

"Tell us about it."

"Well, it was this way. When I started I didn't have anything at all but jest a little yaller puppy dog.

"I took the dog over to my brother-in-law's. He had eight little bits of pigs, oh, jest so little, and I swapped the puppy with him for one of the pigs. It was sech a little pig that it didn't look like it would live, but I nursed it good, and I prayed to the Lord to make that little pig come for'ard to do me good, and the pig lived and grew.

"The first year I turned her out, and when she came back in the fall she brought me seven little pigs with her. That was my start. I've never had to buy any meat since. This winter I've killed three hogs, and I've got another at home now ready to kill. I've got forty acres of land now, all paid for, and a house, and it all come from that one little puppy."

"Do you hear that," exclaimed Mr. Washington, "you men? Some of you'd better go back home and swap your dogs for pigs!"—Philadelphia Ledger.

People past middle life usually have some kidney or bladder disorder that saps the vitality, which is naturally lower in old age. Foley's Kidney Remedy corrects urinary troubles, stimulates the kidneys, and restores strength and vigor. It cures uric acid troubles by strengthening the kidneys so they will strain out the uric acid that settles in the muscles and joints causing rheumatism. J. W. McCollum & Co.

"I appear to have made something of an impression on that man over there," remarked a young lady at a wedding party. "He has been looking at me ever since I arrived."

NOTICE OF APPLICATION FOR TAX DEED UNDER SECTION 5 OF CHAPTER 498, LAWS OF FLORIDA.

ABOUT ADVERTISING—NO. 2

The Dollar That Can't Be Spent

By Herbert Kaufman

Every dollar spent in advertising is not only a *seed* dollar which *grows a profit* for the merchant but is actually *retained* by him even *after he has paid it to the publisher.*

Advertising creates *a good will* worth the cost of the publicity.

It actually *costs nothing.* While *it uses* funds it does not *use them up.* It helps the founder of a business to grow rich and at the same time *keeps* his business from not dying when *he* does.

It eliminates the personal equation. It perpetuates confidence *in the store* and makes it possible for a merchant *to withdraw* from *business* without having the *profits* of the business *withdrawn* from *him.* It changes a *name* to an *institution*—an institution that will *survive* after the death of its builder.

It is really an *insurance policy* which costs nothing—*pays* a premium each year instead of *calling for* one, and renders it possible to change the entire personnel of a business without disturbing its prosperity.

Advertising renders the *business* stronger than the *man*—independent of his presence. It permanentizes systems of merchandising, the track of which is left for others to follow.

A business which is *not* advertised *must* rely upon the *personality* of its proprietor, and personality in business is a decreasing factor. The public *does not want to know the man* who owns the store—it isn't interested in *him,* but in his goods. When an unadvertised business is sold it is only worth as much as its *stock of goods and fixtures.* There is no good will to be paid for—*it does not exist*—it has *not* been *created.* The name over the door *means nothing* except to the limited stream of people from the immediate neighborhood, any of whom could tell you *more* about some store ten miles away which has regularly delivered its shop news to their breakfast tables.

It is as *shortsighted* for a man to build a business which *dies with his death* or ceases with his inaction as it *is unfair* for him not to provide for the *continuance of its income to his family.*
